### Water Saving Tips Inside the Home

- When shaving, use a sink filled with rinse water.
- Take short showers instead of baths.
- Fill the sink with water to pre-rinse dishes before putting them in the dishwasher.

### Water Recycling Tips

- Place a bucket in the shower to catch water that is wasted while you adjust your shower water temperature and recycle this water for plants or other watering uses.
- Other sources of water that can be recycled easily for other watering purposes include:
  - Pet dishes
  - Flower vases
  - Leftover water from cooking or drinking
  - Dehumidifier water

### Water Saving Tips Outside the Home

- Use a broom, not a hose, to clean driveways, steps, and sidewalks.
- Wash the car with water from a bucket. If a hose is used, control the flow with an automatic shut off nozzle.
- Water the lawn or garden during the coolest part of the day and avoid windy days.
- Use soaker hoses and trickle irrigation systems to reduce the amount of water used for irrigation.
- Use mulch around shrubs and garden plants to reduce evaporation from the soil surface and cut down on weed growth.
