

NBCMA Gets a New Website!

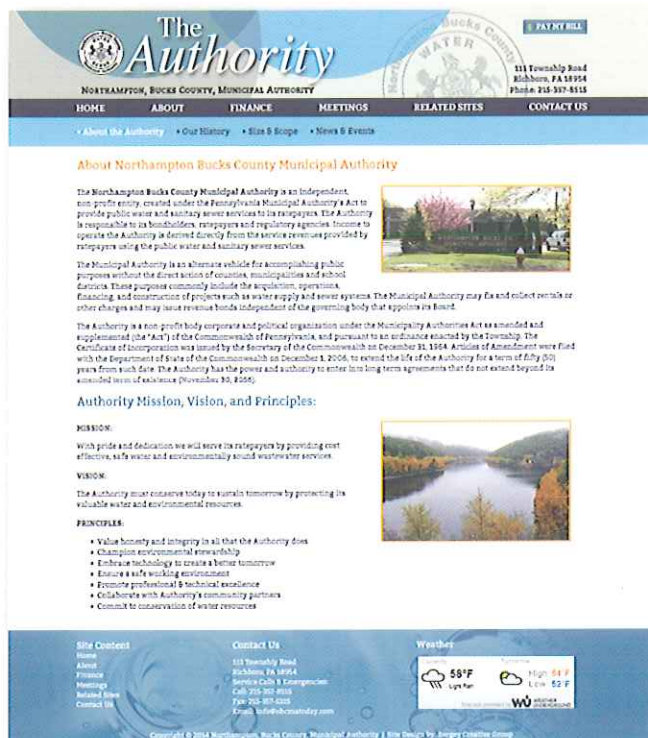

As a Municipal Authority of Pennsylvania, NBCMA provides both services and information to our ratepayers. We send out our Consumer Confidence Reports and newsletters as both printed and electronic material, but as the world moves more towards the preference of an electronic format, we need to keep up as an Authority.

In an effort to better communicate important information with our customers, we've acquired a new website! It has an entirely new look and feel to it, as well as a more organized informational structure so our visitors can find what they are looking for quickly and easily. Public meeting schedules, Consumer Confidence Reports, and general news are available and up-to-date for your convenience. You can also pay your bill and contact us directly from the website as well.

www.nbcmatoday.org

Keeping the website current with the latest information was of utmost importance to the Authority, so we chose a platform that allows us to edit and update the website on our own without needing any special knowledge of HTML or programming language. Our new website is powered with a Content Management System (CMS) called EXCEED, and it allows us to edit and add content, photos, PDFs and more as we please. This platform was introduced to us by Bergey Creative Group (www.BergeyCreativeGroup.com), who also does the creative work for our CCR's and Newsletters.

New NBCMA Website Features:

- An entirely new look and feel that provides intuitive user navigation throughout the entire website
- A rotating image banner on the homepage for announcements
- The homepage is now organized into specific areas: Contact info, Consumer Confidence Reports, News, Right to Know, Public Meeting Schedule, and more!
- A contact form so you can get in touch with us quickly and easily
- Local weather for our location in Richboro, PA at the bottom of the website
- Related Sites - A whole new page with links to other websites with useful information

We look forward to your feedback!
